

93 5. (amended) Method according to [any of the preceding  
claims] claim 1, wherein said computer arrangement is an  
e-mail server (12).

7. (amended) Method according to [any of the preceding  
claims] claim 1, wherein said second protocol is HTTP.

8. (amended) Method according to [any of the preceding  
claims] claim 1, wherein said second wireless network (15)  
is either GPRS or UMTS.

9. (amended) Method according to [any of the preceding  
claims] claim 1, wherein said first wireless network is GSM.

10. (amended) Method according to [any of the preceding  
claims] claim 1, comprising establishing an on-line  
connection between said computer arrangement (12) and said  
mobile device (17(i)) either automatically by said mobile  
device (17(i)) or by said mobile device (17(i)) after being  
instructed to do so by a user of the mobile device (17(i)).

95 12. (amended) Communication system according to claim 11  
arranged to establish an on-line connection between said  
computer arrangement (12) and said mobile device (17(i)).[:]

13. (amended) Communication system according to claim 11  
[or 12], wherein said first network (19) is arranged to  
[utilise] utilize a first protocol and wherein said second  
network (15) is arranged to [utilise] utilize a second  
protocol.
